Montgomery Water System Basic Quarterly Rates effective 4/1/10

USE

\$ 55.00 for first \$4,000 gallons,

\$ 5.00 for each 1,000 gallons after that.

BOND

| | Residential* | Commercial |
|---------|--------------|------------|
| Center | \$33.00 | \$50.00 |
| Village | \$48.00 | \$61.00 |

* Single Family Owner Occupied

A. Effective 1/20/14:

On approval of the Water Commission, water may be sold to individual homeowners, businesses or others not a part of the System. When doing so the following rates and fees will apply:

1. \$50 Service Charge per day
2. \$55 for first 4,000 gallons and \$5.00 for each additional 1,000 gallons per day

If the purchaser is a Montgomery taxpayer purchasing the water for use in a property in Montgomery, the Commission may waive the Service Charge since taxpayers make an annual contribution to the System Bond.

B. Effective 11/7/16:

In response to temporary drought conditions the daily service charge (A.1.) is waived and usage rates will be based on the normal billing quarter rather than per day for Montgomery taxpayers for water for use in Montgomery. This does not include tankers or other commercial haulers, or large volume transactions. Customers should contact the Town Clerk to set up and an account or to answer any questions.

Notice: Raw/untreated water will not be sold.
